438

Grow with Ohio's aerospace & aviation leadership

Ohio is the birthplace of aviation with native sons Orville and Wilbur Wright's invention of flight of flight in 1903. Ohio continues this aerospace legacy as the undisputed global leader in aircraft engine design and manufacturing as well as military aviation research & development. The aerospace and aviation industry is one of the state's largest sectors, directly employing more than 100,000 skilled full-time workers. Industry flagship organizations in Ohio include the NASA Glenn Research Center in Cleveland and GE Aviation in Cincinnati, along with Wright-Patterson Air Force Base. Ohio is also uniquely positioned as a leader in the development of unmanned aerial vehicles.

Aerospace & Aviation Rank in the U.S.

- 1ST** U.S. supplier state to Airbus S.A.S.
- 1ST** U.S. supplier state to Boeing
- 3RD** U.S. supplier state to Northrup Grumman

Ohio's Rank in the U.S.

- 1ST** Most improved business climate (*Chief Executive Magazine*, 2013)
- 3RD** Lowest tax rate on new capital investment
- 7TH** Largest population
